

# RI TRANSPARENCY REPORT

2019

Captor AB

# About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the PRI website, ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2019 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

#### Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six <u>Principles for Responsible Investment</u>. It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
✓	The signatory has completed all mandatory parts of this indicator
Ø	The signatory has completed some parts of this indicator
<b>&amp;</b>	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
Ъ	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

SG 02.3

Additional information [Optional].

All information and documents within Captors work on responsible investment will be published on https://captor.se/ansvarsfullainvesteringar/.

SG 03 Mandatory Public Core Assessed General

SG 03.1

Indicate if your organisation has a policy on managing potential conflicts of interest in the investment process.

Yes

SG 03.2

Describe your policy on managing potential conflicts of interest in the investment process.

Captor has a policy for managing conflicts of interest and a policy for managing ethical issues. In those cases when there is a conflict Captor aim to not put aside the client's interest. More information can be found in the policies.

O No

SG 04 Voluntary Public Descriptive General

SG 04.1

Indicate if your organisation has a process for identifying and managing incidents that occur within portfolio companies.

Yes

 $\bigcirc$  No

SG 04.2

Describe your process on managing incidents

Captor use an external resource to detect companies breaching international norms and conventions. Through the screening we can discover incidents that are considered systematic violations of these norms and conventions and thereafter divest. The screening covers guidelines including human rights, labour rights, environment and corruption. This resource also provides Captor with weekly news briefing on potential breaches that gives us the possibility to have a foresight within our portfolio companies based on ESG issues.

#### Objectives and strategies

SG 05 Mandatory Public Gateway/Core Assessed General

SG 05.1

Indicate if and how frequently your organisation sets and reviews objectives for its responsible investment activities.

- O Quarterly or more frequently
- Biannually
- Annually
- O Less frequently than annually
- O Ad-hoc basis
- O It is not set/reviewed

SG 05.2

Additional information. [Optional]

The Head of Portfolio Management

The policy on responsible investment is reviewed annually to ensure that the content remains relevant and in line with market practice. During the year the Head of responsible investment lifts important topics with the asset managers and the executive management.

### **Governance and human resources** SG 07 **Public Mandatory Core Assessed General** Indicate the internal and/or external roles used by your organisation, and indicate for each whether SG 07.1 they have oversight and/or implementation responsibilities for responsible investment.
